Our Gift is Your Gain

Christmas is that special time of year that we give gifts to those we love most. It's a celebration of peace and love, and it brings an overall sense of well-being. If you're looking to gain something this year that is more than just material, we have a viable solution for you. Our gift to you is called GAINSwave.

GAINSwave is our state of the art technology that enhances sexual performance and helps rid you of erectile dysfunction. Who else can give a gift like that? It works by emitting high-frequency acoustic waves that help return regular blood flow to the penis. More blood flow means less of a struggle to get an erection.

Other ways people typically combat ED include endless medications that enslave you to their effects, but in reality don't work all that well. Other procedures may be invasive, time-consuming and again include medication. GAINSwave is drug-free, non-invasive and has little to no side effects.

The holidays should be a time full of rest, and that can be hard to do when you're constantly worried about your sexual performance. Wouldn't it be great to have that confidence again? Maybe one of your New Year's resolutions is to get your fire back with your partner. With the power of GAINSwave, these and much more are possible.

The Broadway Clinic offers ED treatment for men who are experiencing trouble with erections or who just want to improve their erection quality. Visit our website here to watch supplemental videos about the

GAINSwave program: <http://broadwayclinic.com/e-d-men/>. You can also come in and visit us, and we will be able to assess your personal needs. Don't wait any longer to feel better!

NO SHOW POLICY UPDATE

Dear Patients: Effective Monday, December 4th, 2017, we will start to enforce a \$25 no-show fee.

Due to an increased number of no-show appointments we feel it is necessary to implement a fee to encourage our patients to keep their appointments, or at the very least, to provide us with a 24 hour notice when they are unable to make it. This will allow us to ultimately better serve our patients especially during our busier months.

Please do not hesitate to ask if you have any questions.

Respectfully,
TBC Management & Staff
