At The Broadway Clinic, we're aware of the sexual issues some men face as they age. It can be frustrating to be a man over 30 whose sex life is gradually dwindling. Even if you don't have erectile dysfunction (ED), would you like to satisfy your partner more and even boost your own sexual confidence? You can *regain* your optimal sexual performance and confidence in the bedroom...we will tell you how.

Erectile dysfunction (ED) is a condition in which you are unable to get or keep an erection firm enough for satisfactory sexual intercourse. ED can be a short-term or long-term problem. You have ED when you...

- Can get an erection sometimes, but not every time you want to have sex
- Can get an erection, but it does not last long enough for fulfilling or satisfactory sex
- Are unable to get an erection at any time

ED can happen to anyone, affecting nearly 30 million men in the U.S. alone, but you're more likely to experience ED if you...

- Are older
- Have certain diseases, conditions, psychological or emotional issues
- Take certain medicines
- Have certain health-related factors or behaviors, such as overweight or smoking

ED can leave you with an unfulfilled sex life, a loss of intimacy between you and a partner, depression, anxiety, low self-esteem, or being unable to get a partner pregnant. But it's not all bad news - there is a solution!

Extracorporeal Shockwave Therapy (ESWT) works by delivering low-intensity shock waves that trigger "microtrauma" in the penis. In turn, this helps new blood vessels grow from older blood vessels in a process called angiogenesis. The new blood vessels allow enough blood in to form an erection. At The Broadway Clinic, we call it REGAIN.

Unlike temporary ED treatments, REGAIN offers lasting results without having to undergo surgery or take regular medications. In fact, REGAIN has been proven to be even more effective than Viagra and other similar oral ED medications, plus it doesn't have any known side effects.

REGAIN is also beneficial for men suffering from Peyronie's Disease. It breaks down the scar tissue and reduces the curvature of the penis that is typical of this condition. However, you don't have to have ED or any other medical condition to benefit from REGAIN. If you are simply seeking male enhancement for any reason, you can benefit from this critically acclaimed procedure.

Need more convincing? Well, similar shockwave technology for ED treatment has been used successfully in Europe *for decades*. Plus, with our very own REGAIN treatment, 80% of men saw a reversal of their ED condition, and 86% reported stronger sexual performance and satisfaction overall.

The Broadway Clinic is one of the first clinics in OKC to offer this groundbreaking ED therapy. Our very own Dr. Farris has helped hundreds of men with hormone replacement, weight loss and wellness. Don't let a diminishing sexual performance get you down. For a limited time, we're offering 6 REGAIN treatments for only \$2,400! Come see us at The Broadway Clinic today!

CBD Products at The Broadway Clinic

Did you know The Broadway Clinic is now offering CBD products? Made from organically grown Colorado industrial hemp, our products are 100% THC free and legal in all 50 states. CBD is a safe, natural way to promote homeostasis and overall wellbeing in the body. The Broadway Clinic offers CBD products as a way to fight the effects aging has on our bodies and to keep you looking and feeling great! Contact us for more information.

We appreciate our Oklahoma Teachers!

For the teachers that are new to The Broadway Clinic we will be providing a discount of \$100 off of an initial visit for our weight loss program or our BHRT (Bio-identical Hormone Replacement Therapy) program! In addition to this discount, we will also be providing an on-going discount of 10% OFF of all services for our teacher friends through the end of 2018.

To make an appointment or if you have questions call 405-252-9911.

Discounts apply to teachers - Pre-K through 12th grade with a valid school ID.
Please present School ID to receive discount. Some restrictions do apply.
